

WORKSHOP "I MAKE A FILM WITH MY SMARTPHONE"

Take part!

Participate in the 'MY PERSPECTIVE' project

- Learn how to make good movies with your smartphone.
- Get to know young people who, like you, fled to Switzerland without their parents, but have been but have been living here for a long time. You can ask them questions and film them at the same time.
- You can get tips on how to prepare for your future.

Projet **Informations**

- Duration: 5 days
- 8 to 12 young people from your canton can participate
- The videos of the interviewees will be published on our website. You will film and therefore not appear on the video. This means that you will remain anonymous, unless you want your name to appear in the credits of the film.
- Through your film, other young refugees can get useful information.
- If you want to participate, contact your educator or send us a message on WhatsApp: 079 105 13 14
